

LiMIT4WeDA – Green Transport Committee

The Malta Intelligent Energy Management Agency

Gateway Building, University Campus, 7th December 2011

On Wednesday the 7th of December 2011, Eng. Albert Falzon gave a 30 minute talk to the GTC (Green Transport Committee) set up by the University of Malta. There he explained what research is being done in relation to travel planning. The time was 12:30 and the venue was Gate-Way building room 257 at the campus of University of Malta.

In this talk Eng. Albert Falzon presented the idea of car sharing mechanisms as applicable to the Maltese case. Moreover he went on to describe the various forms of car sharing and the actual definition of the car sharing act.

The topics raised were as follows:

- Illicit use of car spaces which should be dedicated to car sharers
- Discrimination of car sharing
- Hardware and financing involved in the making it possible
- Software platform required for the car sharing portal
- Awareness about tire pressure in cars
- Raising awareness in the context of efficient and responsible driving
- Horizontal activities in the context of car sharing
- A logo for car sharing
- The actual mpg of each car - Lucio Mule Stagno
- The tire pressure
- The way cars should be maintained and used
